

CinchLock™

Door Lock For Outward Opening Doors

The **CinchLock-CL™** is a strong, affordable and easy-to-install temporary lock for doors that open outward.

The **CinchLock-CL** is easily installed by teachers or others in less than 30 seconds.

It's completely self-contained, portable, and affordable, meaning you don't have to install one permanently on every door or put anything together.

The **CinchLock-CL** works on both right and left opening doors in various widths and thicknesses (>2.35") to accommodate the myriad of doors installed at schools and office buildings across the country.

The locking mechanism is designed with high-strength strapping and a CamLock both rated to withstand 700 lbs of pressure, so the **CinchLock-CL** will surely keep unwanted intruders out.

"Less than 30 seconds to safety"
